

Capital Projects

Maintaining and improving our community shows pride in ownership and helps keep our property values at a high level, which benefits all home owners. In addition to the fixed cost of regular maintenance to common areas of the community, certain capital improvements are often necessary and are also funded by our HOA membership dues.

The board understands the importance of keeping our HOA dues affordable and will make every effort to budget whichever projects as are taken on accordingly.

Capital Projects over \$5,000 require approval by members of the HOA, with one vote per household. Capital Projects under \$5,000 will be approved by the board based on their benefit to the community and do not require a HOA vote.

If you would like to suggest a capital project for consideration by the board, please do so below.
